CELL PHONES AT CAMP

We are very serious about wanting to eliminate distractions and the biggest one we believe at camp is phones. We are doing something completely counter-cultural in disconnecting for a full week and are believing that God is going to move through it. So many different things are fighting for your student's attention. We want to take a week to pull away from that and fix our eyes on the perfecter of our faith.

With this in mind, we are asking that you **do not let your kids bring their phones to camp**. We know that some of you have concerns about being able to reach your kids, so we will have a phone number set up that you can text if you want to get in contact with them. All our leaders, including myself, will have a contact list of parents from registration so that we can be in touch.

Our goal is for students to experience Jesus distraction free and we're believing that God is going to bless this decision and show up in a massive way!
